

CATERINA CAMERLENGO

I am a highly motivated International Baccalaureate graduate and upcoming Computer Engineering scholarship student at Politecnico di Milano (September 2026). Driven by a strong international background and a passion for multicultural collaboration, I combine technical skills in physics and computer science with a proven track record in digital community management, tech outreach, and content creation.

Languages

- First language English
- First language Italian
- B1 level Mandarin
- A1 level German

Skills

- Design: Canva, Figma, Adobe Illustrator
- Image editing: Photoshop, Lightroom
- Video editing: capcut, Adobe after effects
- Miscellaneous: Microsoft 365, Google suite
- Website design: Wordpress, HTML, CSS, JS
- Programming: Python, NumPy, Matplotlib
- 3D modeling: Blender, Zbrush, Fusion 360

Education

- Scholarship student starting in September 2026 at Politecnico of Milan for computer engineering
- International Baccalaureate 2026 graduate from St. Clares Oxford with chosen subjects:
 - First language English
 - First language Italian
 - Physics
 - Maths
 - Visual Arts
 - Psychology
- IGCSE 2024 graduate from international school St. Louis Milan with subject electives including:
 - Computer Science
 - Global perspectives
 - Foreign language Mandarin

Experience

Tech newsletter

St. Louis Milano, 2022 - 2024

- Started and ran a tech newsletter for the student body
- Used the platform to present and discuss both emerging technologies and new opportunities to get involved in as a high schooler

Technology outreach

St. Louis Milano, 2022 - 2024

- Worked on outreach with the Computer Science department
- Outreached to teachers to involve them in introducing Virtual Reality to classrooms
- Specifically created virtual reality environments to match learning goals, such as natural environments suited to Geographic exploration

Discord community manager

LavanderMC, 2025 - present

- Community manager for the Minecraft server and discord community of over 200 members 'LavanderMC'
- Created the official website for the community:
<https://katetристocode.github.io/LavanderMC/>

Instagram page manager

2024 - 2026

- Ran an instagram account for humorous content regarding school life, not affiliated with my school
- Regularly posted in response to school events and news
- Collaborated with other students to have content representing different perspectives and subject groups

Stardance Ambassador

HackClub, 2026 - present

- Ambassador for the world's biggest engineering challenge, hosted by HackClub in collaboration with NASA, AMD, and GitHub
- Reached out to teachers and students, provided an informative presentation and posters

Event organizer

HackClub, 2026

- Organized a small event and received funding from HackClub Blueprint Build Guilds, in which participants completed hardware projects over the course of a day
- ran tutorials and lectures throughout the day
- received sponsorships from JLCPCB and gen.xyz
- outreached to numerous schools in the local district
- created custom posters as well as a website for the event:
<https://katetристocode.github.io/buildguildoxford/>

'Stasis' support and outreach

HackClub, 2026

- Reached out and connected with 'Stasis', a HackClub hardware challenge, participants, in a role officially known as 'Stasis sidekick'
- Individually reached out to 150+ participants
- Helped participants by providing resources based on their hardware skill level
- Encouraged participants to engage in the community by hosting virtual meetups
